Announcements

March is Women's History Month. This week we honor Vandana Shiva. Shiva is an environmental activist and an Indian scholar. She has authored over 20 books regarding the earth. She is trying to prevent clear cutting and the construction of dams near the wildlife.

March is Athletic Training Month. What are athletic trainers you might ask? Athletic trainers are healthcare professionals that work with doctors and other medical staff to provide preventative care, emergency procedures and rehabilitation of injuries and various medical conditions to a variety of athletes. Stay tuned the whole month to learn more about athletic trainers.
